# Nerd 3D Gloves Set

**Product:** <http://www.daz3d.com/i/shop/itemdetails/?item=12135>

**Product Code:** ps\_ac4512b

**DAZ Original:** NO

**Created By:** [Nerd3D](#)

**Released:** March 3, 2011

## Product Update

An update for this product was released on 4 March 2011. This update is to correct a problem with the Girl 4 morphs in the Long Gloves.

Part 1 of the installer needs to be re-downloaded. The new file for part 1 is "12135\_5\_dpc\_Nerd3DGlovesSet\_5.exe". If you have that file you have the current installer. If you have "12135\_4\_dpc\_Nerd3DGlovesSet\_4.exe please download the new version and install it over top of your current install. You do not need to uninstall the old one.

The thumbnail for the Long gloves will have a small 1.1 in the lower left corner to indicate the updated version. The Long Gloves are the only item effected by this update.

## Requirements

DAZ Studio 2 or newer Poser 6 or newer Victoria 4 Support is included for Aiko 4, Girl 4, Elite, Stephanie 4, and Angel as well as the ++Morphs. If you have these add-on figures they will work with the gloves but they are not required to use this item.

Special support for BadKittehCo's Welder Girl. There is an injection to create a morph in the Jump Suit so the sleeves will fit inside the welding gloves.

## Release Notes

This collection of Super Conforming gloves is designed to fit Victoria 4 and Variant figures. Always select the target figure (Victoria) before loading the gloves. When loading several conforming figures in a row always remember to select the target figure between loading each of the conforming figures.

The Welder Girl morph injections are platform specific. If you have BadKittehCo's Welder Girl and are

using DAZ Studio or Poser 6 please use the “01 DS-P6-INJ Welder Fit Gauntlets” pose. It will replace the existing tighten Sleeve morphs with ones that fit better in the gloves. Poser 7 and newer should use the pose “02 PZ7+INJ Welder Fit Gauntlets”. This PMD injection will create a new morph instead of replacing the existing tighten sleeve morph. When this pose is applied you will need to dial the “Fit Welder Girl” morph in the Gauntlet gloves to about 0.5 (50%) to get good coverage of the sleeves. In some poses it may be necessary to dial it higher. The morphs are designed to work together. Using one with out the other will not produce good results.

This set contains special utility poses to convert the gloves into fingerless gloves. Make sure the gloves are selected before using this pose. Applying it to other figures may have unpredictable results. The Hide Fingers pose shuts off the visibility of the 2nd and 3rd joint of fingers on the gloves. It then activates a special morph to round the exposed edge on the first joint of each finger. This morph is intended to preserve the illusion of thickness of the glove's material.

A utility pose is included to restore the fingers. Always be sure to apply this morph to the gloves only.

A special pose to cut out the knuckles of the gloves is included. The Show Knuckles utility pose applies an invisible material to the knuckle of supported gloves and then activates a special morph to round the edge created around the knuckles. The idea is to preserve the illusion of thickness. This only works on gloves with “RightKnuckles” and “LeftKnuckles” materials.

A utility pose to replace the knuckles is included. This will set the material of the knuckles to black and remove the morphs. After restoring the knuckles you will need to apply a new material to the gloves.

Two special “Studs” figures are included to add studs to the gloves. These figures will match the morphs in the Target figure but may not automatically match the style morphs in the gloves. If the Style morphs do not match just dial them to the same amount as dialed in the gloves. Be sure to select the gloves, not the underlying figure when adding the studs.

## Features

```
<ul>
  <li>6 Complete Glove Figures with variants
    <ul>
      <li>Shoulder Length Fashion Gloves
        <ul>
          <li>Fingerless</li>
