The Greek Bath

Product: [The Greek Bath](#)

Product Code: ps_ac819

DAZ Original: YES

Created By: marforno, Danie, Abraham

Released: June 4, 2004

Product Information

* Compatible Products: Victoria 3, V3 Head Morphs, V3 Body Morphs.

* You can find new icons for loading this product in the following Poser Libraries:

- Camera: "GreekBath"
- Figures: "GreekBath P4" , "GreekBath PP"
- Light: "GreekBath"
- Pose: "GreekBath" , "GreekBMAT P4" , "GreekBMAT PP"
- Props: "GreekBath P4" , "GreekBath PP"

Product Notes

* The easiest way is to use one of the pz3's which are included.

* Without use of the pz3 :

- At first you have to start Poser and loading any prop to create your scene. You will find the main parts in your character-folder called: "GreekBath" and the separate props in your props-folder called: "GreekBath".
- All separate props are parented to the Bath Base so they will load into the right spot of the scene.
- After loading the props you can go to the camera-folder called : "DMGreekBath" and load any setting

* MATs:

- To change the textures of the Bath locate your pose-folder called: "GreekBMAT", select the Bath Base and change the textures by one click.
- The MAT "Statue" will work on V3, M3 and S3 to transform them into a marble statue.
- The MAT "Hair" is for the Grecian Style Hair, available at Daz3D.

* Lights and cameras:

- To change the default POV, locate the camera-folder called: "DMGreekBath" and load any

camera setting that you would like to use.

- To change the default light set locate the light-folder called: "DMGreekBath" and do it the same way

* N O T E :

- To load the respective background sky go to "File/Import/Background image" in your Poser menu, locate the texture-folder "GreekBath/Background Sky" and choose one of the images.
- Sample : Load background "Angel Skies.jpg" → load water MAT "Angel skies" → load light set "Angel skies" → voilà

* Poses:

- Load the Victoria 3 model of your choice, locate the pose-folder called: "!!DMGreekBath" and load any pose you would like to use.
- To place your character easier in the scene you will find several "Goto-..." poses which has been saved without any posings so you will not loose the pose you choose. The "Goto-000" pose will reset the position of your character to zero.
- Once you have placed your character in the scene, choose any of the poses.

Note to P4 users:

Poser 4 users will need to convert several bump maps from .jpg files to use the P4 files properly. These Bump Map files are:\\

- * GreekBath:BathBlueBump.jpg\\
- * GreekBath:BathWhiteBump.jpg\\
- * GreekBath:BenchesAndGrids Bump.jpg\\
- * GreekBath:GargoyleBump.jpg\\
- * GreekBath:GBbronzeBump.jpg \\
- * GreekBath:GridsDecorationsBump.jpg\\
- * GreekBath:GroundBlueBump.jpg\\
- * GreekBath:GroundWhiteBump.jpg\\
- * GreekBath:OutsideStairSidesBump.jpg\\
- * GreekBath:PedestalBump.jpg\\
- * GreekBath:TemplettoBump.jpg
- * GreekBath:VaseBump.jpg\\
- * GreekBath:WallsAndColumnsBump.jpg\\
- * GreekBath:WaterObjectBump.jpg\\

Please see [Bump Map Conversion Help](#) for more instructions on converting Bump Files. In all cases, "P4" will refer to Poser 4 and "PP" will refer to Pro Pak.
