# Power Boat

**Product:** [Power Boat](#)

**Product Code:** ps\_ac1143

**DAZ Original:** Yes

**Created By:** Serrge

**Released:** February 18, 2005

## Product Information

- You can find new icons for loading this product in the following Poser Libraries:
  - Figures: "PowerBoat"

## Product Notes

Power Boat - stand alone figure for Poser4. Inspired by real-life high performance power boats, this figure is already prescaled for standard Poser humanoid figures. The boat is built to scale, real boats are approximately 75' (22.8m) length and 17' (5.1m) beam, so it's a big model :). Textures for all items included.

- Features:
  - Highly detailed model (41,628 faces) with some moving parts.
  - Rotating steering on the model connected to the two riders so if you turn the steering, the riders will turn automatically.
  - All moving parts have the limits applied for real world accuracy.
  - Texture is split across 5 templates for easy and detailed texturing.
- Material division by texture maps:
  - PowerBoat-part1-tex: top, air-grille, glass-mat2, glass-mat3, glass-interior, plastic-black2.
  - PowerBoat-part2-text: bottom, plastic-black, deck-rubber, metal-props, glass-mat1.
  - PowerBoat-part3-text: leather, plastic-mat1, door-rubber.
  - PowerBoat-part4-text: buttons, metal-mat1, plastic-mat2, plastic-mat3, screen.
  - PowerBoat-part5-text: table-glass, door-glass, metal-chrome.
- **Note to P4 users:**

Poser 4 users will need to convert one bump maps from a .jpg file to use the P4 files properly. This Bump Map file is:

- :S Studio Tex:PowerBoat:PowerBoat-part2-bump.jpg

Please see [Bump Map Conversion Help](#) for more instructions on converting Bump Files. In all cases, "P4" will refer to Poser 4 and "PP" will refer to Pro Pak.

## Known Issues

- None
