## Additional Details

- The PoserCF installer only includes the Genesis 2 Female version.
- To use the hair:
  - Load your human figure, make sure it remains selected!
  - Load the hair.
  - Use hair's custom fit dials if necessary to fit your custom character's head, such as hairline, crownSize and temples.
  - Apply preset materials and/or modify them for your own use.
  - Dial style and movement morphs.
- Usage Tips:
  - You can easily modify hair colours by selecting your own diffuse colour settings for the hair.
  - After posing, use the style and movement morph dials to match you figure's pose and also ensure fitting.
  - You need at least one light in the scene that will provide the specular highlighting!
  - If the highlights are too strong or too weak, I recommend you turn the specular/highlight colour to a darker grey or lighter grey as needed, no need to mess with the highlight size or roughness/glossiness.
