Additional Details

- Very simple garments designed to be versatile and allow you to create a variety of outfits. Multiple material Zones and presets allow you to show and hide parts of each garment with one click.
- Coordinating textures mix and match to further enhance the versatility of each garment.
- Use the parts individually, together or combine with other sets. The "Base" texture is designed specifically to provide a base for creating your own unique looks, whether you choose to use the L.I.E. or simply change the Diffuse color to match to other clothes.
- COAT:
 - 2 Versions of the coat are included, AP (Auto Pose) and MP (Manual Pose)
 - Auto Pose: follows Genesis every move, perfect for simple Standing, walking and moderate action poses where the skirt can automatically fit with minimum assistance from morphs or manual adjustments. ALL of the morphs are included in the garment.
 - Manual Pose: Does not include the "Thigh" bones. It must be manually posed and morphed to get a realistic result. This version of the coat will work best for more extreme poses or when you want to get the most of the included morphs
 - The provided Lace coat transparency can be applied to any of the included Materials.
 - Morphs should be applied sparingly for the most realistic effects. Applying many morphs together may result in unsightly distortion and stretching.
- Boots:
 - Foot pose is intended as a "starting point" apply after you have posed Genesis, after applying the pose, you may need to "move to floor" and adjust the foot to compensate for your pose.
 - Zero Toes preset is to remove the individual toe rotations from Genesis. It will make your shoes fit better.
- One Piece
 - Skinny pants and Bandeau. Includes a variety of Shaping morphs, transparency options and Material presets (including "Bandeau only" presets) to allow you to create a variety of

looks.

- ALL models are SubD, low resolution, with smoothing applied.
