## Product Information

- Required Products: [Olympia 6](#)

The third iteration in the Ultimate Natural series is a set of MCMs and JCMs for Olympia 6. They give more natural and realistic definition to Olympia 6's arms, legs, neck movements. The morphs were

sculpted specifically to support Olympia 6 body shape.

MCMs are for the Pose Controls for Arms and Neck-Head movement. Olympia's shoulders have more articulated definitions. The scapulae also move with up, forward and back arm movements to give her body a much higher degree of realism.

Thigh Bend JCMs give Olympia 6 truly natural thigh, buttock definitions. Now her buttocks move both more realistically and beautifully. The frontal pubis area is also smoothly sculpted so that the geografting anatomy integrates more naturally.

Shin bend JCMs give definitions to the knee region and calf bulge.

Forearm bend JCMs enable Olympia's elbows to bend realistically with a more explicit edge.

“Ultimate Natural for Olympia 6 body” is a must-have add-on when you are seeking a higher degree of realism with your renders. Perfect for pin-ups, portrait, artistic nude work and more.

The conforming clothes will fit to the movement automatically.

All rendered images were created with “Ultimate Natural for Olympia 6 Body”.
