Easy Environments: Space

Product Information

- Required Products: None

Easy Environments: Space offers a big variety of custom-made planet billboards and starfields which you can mix together.
It includes 13 fantasy planets, Mars, Venus and 10 starfields. Each planet has a mirrored preload as well.

The Starfield textures come at a 12.000×6.000 resolution. The Planets are rendered at 6.000×6.000.

Each Planet preload loads:
- The Planet
- Two Moons
- Sun
- Lensflare

Lighting matching the planet billboard (Daz Studio only, Poser has extra lighting preloads)

All elements are bound to center nodes which you can use to rotate (move) them along the starfield.

The set is quite flexible, you can quickly scale it’s parts or change a planet’s brightness or tone through ambient/emissive color.

Easy Environments: Space supports Iray, 3Delight, and Poser.

Product Notes

Installation Packages

Below is a list of the installation package types provided by this product. The name of each package contains a Package Qualifier (WIP), which is used as a key to indicate something about the contents of that package.

- [1 DS]
- [1 Ps]

[ ] = Optional, depending on target application(s)

Not all installation packages provide files that are displayed to the user within the interface of an application. The packages listed below, do. The application(s), and the location(s) within each application, are shown below.
