

HW3D Cougar

by HW3D

HW3D Creations: Christopher Creek Art, CG Cubed, CWRW

Thank you for purchasing this product by HW3D! We hope you enjoy it.

Required Products:

HW3D Big Cat by HW3D

HW3D Cub by HW3D (for Cougar Cub)

Required Software: Poser or DAZ Studio

Minimum required version of Poser: 10 (11+ for Superfly material presets)

Minimum required version of DAZ Studio: 4.9

Manual Installation Instructions:

Poser User: Unzip the zip-file directly into your Poser directory.

DS User: Unzip into your DS Library directory.

Mac: Extract to a temporary directory then copy the files over to your Poser installation, remote Poser Library, or DS Library directory.

Where I can find this product in Poser:

HiveWireCougarComplete INJ (applies Cougar morph and Superfly Materials), and INJ & REM for the Cougar are in
\Runtime\Libraries\Pose\HiveWire 3D Animals\HiveWireBigCat\INJ Morphs\Breeds\Cougar\
Cougar Morph will show up in body of the Big Cat in the Parameter & Posing tabs under
Actor\2_Body\1_FullBody\Breeds\, once INJ.

Materials are in \Runtime\Libraries\Materials\HiveWire 3D Animals\HiveWireBigCat\FireFly\ and
\Runtime\Libraries\Materials\HiveWire 3D Animals\HiveWireBigCat\SuperFly\

Poses are in \Runtime\Libraries\Pose\HiveWire 3D Animals\HiveWireBigCat\Base\Cougar\

Where I can find this product in DAZ Studio:

Cougar Character (will dial morph and apply Iray materials) is in \Animals\HiveWireBigCat\Breeds\
Morph for the Cougar will show up in body of the Big Cat in the Parameter & Posing tabs under
Actor\2_Body\1_FullBody\Breeds\, once Product is installed.

Materials are in \Animals\HiveWireBigCat\Materials\3Delight\ and \Animals\HiveWireBigCat\Materials\Iray\

Poses are in \Animals\HiveWireBigCat\Poses\Base\Cougar\

Important Notes:

You can call our Cougar a Mountain Lion, a puma, panther, screamer, or even a catamount. But we call it paws down,
the best Cougar available for Poser or DAZ Studio.

Though this Cougar doesn't roar like a true big cat, it's the pur-fect addition to your cat collection. This gorgeous and
graceful animal comes with the same wide range of morphs that the Big Cat has, and since it is a pure morph from
the Big Cat, it shares the same UVs. This means all texture maps that come with the Big Cat, Cub, House Cat or Kitten,
will work for the Cougar. This Cougar also comes with an additional Cougar cub morph, and a well-crafted matching
cub texture map.

What's Included & Features

Cougar Base Morph (.duf, .pz2)
FBMCougar (INJ/REM for Poser Version)

Combined Morph and Material files (.duf, .pz2)
Poser (loads with Superfly Materials) - HiveWireCougarComplete INJ
DAZ Studio (loads with Iray Materials) - HiveWireCougarBreed

Materials (.duf, .mc6)

Body

- Cougar
- Cougar Cub

Eyes

- Cougar Eyes
- Cougar Cub Eyes

Render Engines

- DAZ Studio - Iray and 3Delight
- Poser - Superfly (requires Poser 11+) and Firefly

Textures

- High Resolution Texture Cougar and Cougar Cub Maps (6000x6000)
- High Resolution Texture Cougar and Cougar Cub Eye Maps (2048x2048)

Poses (.duf, .pz2)

8 Base Poses Adjusted for Cougar Morph

- Attack 01_Cougar
- Batting 01_Cougar
- Laying Down 01_Cougar
- Sitting 01_Cougar
- Stalking 01_Cougar
- Stretching 01_Cougar
- Trotting 01_Cougar
- Walking 01_Cougar

Additional Morphs

3 Partial Body Morphs

- PBMCgrTailTapered
- ADJThighVolumeLeft
- ADJThighVolumeRight

15 Corrective Morphs

12 JCMs

JCMCgrHeadBendDwn	JCMCgrTail17BendDwn	JCMCgrTail18BendDwn
JCMCgrJawBendDwn	JCMCgrTail17BendUp	JCMCgrTail18BendUp
JCMCgrTail16SideLeft	JCMCgrTail17SideLeft	JCMCgrTail18SideLeft
JCMCgrTail16SideRight	JCMCgrTail17SideRight	JCMCgrTail18SideRight

3 MCMs

- MCMCgrCub
- MCMCgrCubTailTapered
- MCMCgrTailTapered

All of the Cougar's morphs are located in the body group so that you don't have to hunt and peck around trying to find the master control dials for any body part morph.

Morphs:

Poser Users must load the Big Cat, then use the HiveWireCougar INJ or HiveWireCougarComplete INJ files.

Cougar morph works with all base morphs at 100% Some tail control dials may need manual adjustments, as they were created for the base Big Cat.

Cougar can be used with Cub morph at 100%. Additional base morphs should be used at 25-30% when combining Cougar morph with the Cub.

Poses:

Adjusted Base Poses are for the Cougar morph, and will need manual adjustment if used with other morphs applied, i.e. the Cub.

Poses not included in this pack may require manual adjustment if used with the Cougar and Cougar Cub.

Materials:

HiveWireCougarComplete INJ file, in Poser, loads with SuperFly Mats applied. Poser 10 & Pro 2014 users will need to apply the Firefly mats after loading.

HiveWireCougarBreed file, in DS, loads with Iray Mats applied. DS users will have to manually apply the 3Delight Mats if using the 3Delight render engine.

Special Thanks to CWRW, the HW3D Beta and QAV teams, and the loyal HW3D community, for their help in the development of this figure.
