

Vintage Doctor Simulation Instructions

Preferred Method: Timeline

- Click on the Timeline tab and change the total frames from 31 to 41
- Click on the Simulation Settings tab and turn the Start Bones From Memorized Pose **OFF**
- On Frames To Simulate, change the default Current Frame to **Animated (Use Timeline Play Range)**
- Load Genesis 8 Male
- Move to Frame 30 and pose him using your preferred pose, making sure the pose is dForce friendly
- Move back to Frame 1 and load !VintageDoctorALL
- Hide the Labcoat and all its buttons, and start simulating the Pants
- Once finished, select the Pants, click the Parameters tab and under Genera/Simulation, turn the Freeze Simulation **ON**
- Un-hide the Labcoat and all the buttons and start the simulation
- And.... that's it! Good luck!
